Article I. Title, Intent, Purpose, Scope of Regulations, Authority and Severability

A. Division 1: Title, Intent and Purpose

1. Title. This Chapter shall be known as the Unified Development Code of XXXX. Cited and referred to as the "Cicero Unified Development Code."
2. Intent and Purpose. This Chapter is adopted for the purpose of:
 - a. Promoting public health, safety, comfort, morals, convenience, and general welfare.
 - b. Securing adequate light, pure air, and safety from fire and other dangers.
 - c. Conserving the taxable value of land and buildings throughout the Town of Cicero.
 - d. These regulations have been based upon the Comprehensive Plan for the Town of Cicero. Said Comprehensive Plan included a study of existing zoning, an estimate of population growth, land use surveys, a land use plan, plans for major streets, community facilities, public utilities, housing, and a capital improvement program. The need for public services and facilities in both size and location depends upon the character and intensity of land use. Regulation of the use of land is thus fundamental to a coordinated and desirable physical development of the Town. The regulations herein are the foundation of the entire process of improvement of the physical environment and accomplish certain standards and objectives.
 - (1) Preserve and protect existing uses and values against adverse or unharmonious adjacent uses.
 - (2) Avoid and lessen congestion in the public streets.
 - (3) Prevent the overcrowding of land by regulating and limiting the height and bulk of buildings hereafter erected related to land area.
 - (4) Establish, regulate and limit the building setback lines on or along streets, alleys, or property lines.
 - (5) Regulate and limit the intensity of use of lot areas, and regulate and determine the area of open spaces within and surrounding such buildings.
 - (6) Prevent additions to and alterations or remodeling of, existing buildings and structures in such a way as to avoid the restrictions and limitations imposed hereunder.
 - (7) Provide for the gradual elimination of those uses, buildings, and structures that are incompatible with the character of the districts in which they are located.

(8) Define and limit the powers and duties of the administrative officers and bodies, and prescribe penalties for the violation of the Chapter.

B. Division 2: Scope of Regulations, Authority, Transition and Severability

1. Scope of Regulations

- a. All buildings erected hereafter, all uses of land or buildings established hereafter, all structural alteration or relocation of existing buildings occurring hereafter, and all enlargements of or additions to existing uses occurring hereafter shall be subject to all regulations of this Chapter which are applicable to the zoning districts in which such, buildings, uses or land shall be located.
- b. However, where a building permit for a building or structure has been issued in accordance with the regulations herein prior to the effective date of this Chapter, and provided construction is begun within six months of such effective date and diligently prosecuted to completion, said building or structure may be completed in accordance with the approved plans on the basis of which the building permit has been issued, and further, may upon completion be occupied under a certificate of occupancy by the use of which originally designated, subject thereafter to the provisions of Article 3, Division 3 (Nonconforming Buildings, Structure and Uses).
- c. Where a plan(s) has been approved, but building or construction permits have not been issued, the applicant must comply with all current Town regulations if the building permit(s) have not been approved within ninety (90) days of plan approval. This will require the resubmittal of all plans for approval under the current Town regulations as may be amended.
- d. Where a building permit has been issued pursuant to the provisions of this Chapter, such permit shall become null and void unless work thereon is substantially underway within six months of the date of the issuance of such permit.
- e. A special use permit shall be deemed to authorize only one particular special use and shall expire if the special use shall cease for more than six months for any reason.
- f. Where a lot is to be occupied for a permitted use without buildings, the side yards and front yard required for such lot shall be provided and maintained unless otherwise stipulated in this Chapter, except that side yards shall not be required on lots used for garden purposes without buildings or structures, nor on lots used for public recreation areas.
- g. No land which is located in a residential district shall be used for driveways, walkways, or access purposes to any land which is located in a business or manufacturing district or used for any purpose not permitted in a residential district.
- h. No use or structure not lawfully existing at the time of the adoption of this Chapter shall become or be made lawful solely because of the adoption of this Chapter, and to the extent that, and in any manner that, said unlawful structures or use conflict with the requirements of this Chapter, said structure or use remains unlawful under the provisions of this Chapter.
- i. This Chapter is not intended to abrogate any easement, covenant, or another private agreement provided that where the regulations of this Chapter are more restrictive (or impose higher standards or requirements) than such easements, covenants, or other private agreements, the requirements of the Chapter shall govern.

2. Authority

- a. **Federal and State Laws.** None of the provisions in this Chapter are construed to require that the Town violate any Federal or State laws. In the event any provisions herein should conflict with any such laws, such provisions shall be modified to the extent necessary to conform to such laws.

 - d. **Structures and Lots Rendered Legally Nonconforming.** If a structure or lot existing on the effective date of this Chapter was conforming or legally nonconforming before the effective date of this Chapter, structure or lot does not meet all standards set forth in this Chapter, that structure or lot is deemed legally nonconforming and is controlled by the provisions of **Article 3, Division 3**(Nonconforming Building, Structures, Lots and Uses)
